

## Ultra-performance for the ultimate clean

Neato intelligent robot vacuums get into corners and edges for a more complete clean. With an industry-leading runtime of up to 300 minutes\*, True HEPA filter, four cleaning modes\*\*, self-charging and autonomous navigation, the Neato D10 combines the powerful performance you expect from a vacuum with the efficiency of a robot. You won't want to hide this vacuum in the closet.

### IC THE D-SHAPE ADVANTAGE

You can't use circles to clean a square corner. That's why Neato introduced the D-shape design to the industry more than 15 years ago. That D-shape allows for a brush right at the edge of our vacuum, instead of in between wheels like those round robots. The result? The widest brush and largest dirt bin in the robot vacuum industry so you can reach corner-to-corner and edge-to-edge for a more complete clean.

### TRUE HEPA FOR A TRUE CLEAN

We know that when you're looking at Neato, you're looking for the ultimate cleaning performance. That's why we created the Neato D10. Our flagship model uses true HEPA filters to capture up to 99.97% of allergens and fine dust particles as small as 0.3 microns, with a runtime of up to 300 minutes.\*

### EXCLUSIVE MODES ONLY ON D10\*\*

Switch the Neato D10 from energy-saving Eco mode for general vacuuming to high-performance Turbo mode for those areas that need a more powerful clean. Have pets? The Neato D10 also comes with Max mode, our most powerful mode that digs deep into fibers to capture more dirt and dander. Best of all there is Auto mode that automatically switches to the right mode depending on the surface it's on.

### LASERSMART NAVIGATION

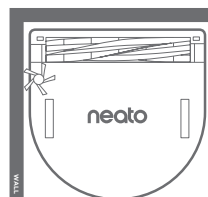

Neato's intelligent robot vacuums use LaserSmart technology powered by LIDAR to map and navigate your home, even in the dark (and under furniture).

### HASSLE-FREE SETUP

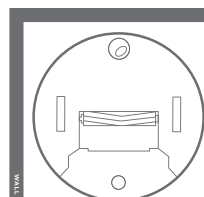

Get cleaning in minutes with Neato's Bluetooth-assisted WiFi setup. Using the MyNeato app, create multiple floorplans and virtual Zones to manage where Neato cleans—and where it doesn't.\*\* Clean where you want, when you want—on demand or scheduled in advance.

### POWERFUL & PRETTY

Neato's D10 intelligent robot vacuum comes in a premium, brushed silver finish that fits in with any décor. This is one vacuum you won't want to hide in the closet.

## Specifications

**D10**

### WEIGHT

Robot: 3.7 kg  
Base station: 0.5 kg  
Package: 5.5 kg

### DIMENSIONS (L X W X H)

Robot: 33 cm x 34 cm x 10 cm  
Base station: 8 cm x 17 cm x 11 cm  
Package: 45 cm x 45 cm x 16 cm

### DIRT BIN CAPACITY

0.7 liter

### BATTERY

6200mAh 14.4V high-capacity lithium-ion

### BATTERY RUNTIME

Up to 300 minutes\*

Quick Boost: It can recharge the amount it needs to finish the job & return to where it left off to finish the job.

### BRUSHES

Helix Multi-Surface Brush (11", 28 cm)  
Side Brush

### FILTER

True HEPA H13 filter captures up to 99.97% of allergens (as small as 0.3 microns)\*

### CONNECTIVITY

Bluetooth setup for easy Wi-Fi connection  
2.4GHz Wi-Fi

## Box contents

- Neato D10 Intelligent Robot Vacuum with high-capacity lithium-ion battery
- Helix Multi-Surface Brush (11", 28 cm)
- Slimline Charge Base
- Power cord (6', 2 m)
- True HEPA filters (2 extra)
- Brush Cleaning Tool
- Side Brush

## Features

### VACUUM FEATURES

- Brushed silver finish
- Chrome color turret
- LIDAR mapping and navigation\*\*
- Info button with voice-based responses provides robot status and error notifications
- Drop sensors
- Battery LED indicator

### CHARGE BASE FEATURES

- 30% slimmer than previous generation
- Improved cable management
- Removable foot pads for base stability
- Power adapter with replaceable duct heads

### APP FEATURES

- New app and UI
- Post-cleaning coverage map
- Cleaning history
- Saves up to 3 floorplans\*\*
- Zones designate areas to clean, and where Neato should stay away\*\*

### CLEANING OPTIONS

- Schedule cleaning
- Whole house cleaning
- Multi-Zone cleaning\*\*
- Eco mode
- Turbo mode
- Max mode
- Auto mode\*\*
- Alexa and Google Assistant compatibility\*\*
- Extra Care navigation\*\*

\* Tested in internal labs

\*\*Product software features may be added and/or subject to change in the course of continuous product improvement. Certain features shown may not be available at time of product purchase and will be delivered directly to your app and/or robot vacuum, when available.
