

D-shaped to do the dirty work

The Neato D9 takes care of the dirty work with more pickup than the Neato D8, and an Ultra-Performance filter to capture 99.5% of allergens and dust particles*. With the largest dirt bin in the robot vacuum industry, an extra wide brush, self-charging, and scheduled cleaning options, Neato will clean when you want, how you want. You've got better things to do.

THE D-SHAPE ADVANTAGE

You can't use circles to clean a square corner. That's why Neato introduced the D-shape design to the industry more than 15 years ago. That D-shape allows for a brush right at the edge of our vacuum, instead of in between wheels like those round robots. The result? The widest brush and largest dirt bin in the robot vacuum industry so you can reach corner-to-corner and edge-to-edge for a more complete clean.

LASERSMART NAVIGATION

LaserSmart technology powered by LIDAR lets Neato map and navigate your home, even in those dark spaces. Worried about stairs? No need—Neato senses where to stay away from. Low on battery? Neato self-recharges for a Quick Boost and returns to where it left off to finish the job. You don't have to babysit your robot while it's cleaning—with Neato, you can just let it run.

DESIGNED FOR THE DIRTY WORK

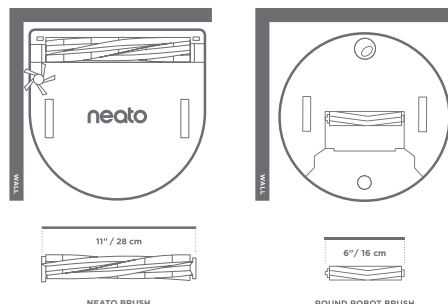

Neato's D9 intelligent robot vacuum comes in a premium, brushed black finish that fits in with any décor. With a Neato, you can set it and forget it—it cleans when you want, how you want, and it looks good too. You've got better things to do.

HASSLE-FREE SETUP

Get cleaning in minutes with Neato's hassle-free, Bluetooth-enabled setup. Using the MyNeato app, create multiple floorplans and virtual Zones to manage where Neato cleans—and where it doesn't. Clean where you want, when you want—on demand or scheduled in advance.

POWERFUL & EFFICIENT

We know you need extra help. That's why we created the Neato D9. With a runtime of up to 200 minutes* and an Ultra-Performance HEPA-style filter that captures up to 99.5%* of allergens, the Neato D9 cleans more dust and dirt on all types of flooring. Switch from energy-saving Eco mode for general vacuuming to high-performance Turbo mode for those areas that need a more powerful clean.

Specifications

D9

WEIGHT

Robot: 3.7 kg
Base station: 0.5 kg
Package: 5.5 kg

DIMENSIONS (L X W X H)

Robot: 33 cm x 34 cm x 10 cm
Base station: 8 cm x 17 cm x 11 cm
Package: 45 cm x 45 cm x 16 cm

DIRT BIN CAPACITY

0.7 liter

BATTERY

4200mAh 14.4V high-capacity lithium-ion

BATTERY RUNTIME

Up to 200 minutes*

Quick Boost: It can recharge the amount it needs to finish the job & return to where it left off to finish the job

BRUSHES

Helix Multi-Surface Brush (11", 28 cm)
Side Brush

FILTER

Ultra-Performance HEPA-style E11 filter with mesh cover captures up to 99.5% of allergens (as small as 10 microns)*

CONNECTIVITY

Bluetooth setup for easy Wi-Fi connection
2.4GHz Wi-Fi

Box contents

- Neato D9 Intelligent Robot Vacuum with high-capacity lithium-ion battery
- Helix Multi-Surface Brush (11", 28 cm)
- Slimline Charge Base
- Power cord (6', 2 m)
- Ultra-Performance HEPA-style filters (2 extra)
- Brush Cleaning Tool
- Side Brush

Features

VACUUM FEATURES

- Black metallic finish
- Polished turret
- LIDAR mapping and navigation**
- Info button with voice-based responses provides robot status and error notifications
- Drop sensors
- Battery LED indicator

CHARGE BASE FEATURES

- 30% slimmer than previous generation
- Improved cable management
- Removable foot pads for base stability
- Power adapter with replaceable duct heads

APP FEATURES

- New app and UI
- Post-cleaning coverage map
- Cleaning history
- Saves up to 3 floorplans**
- Zones designate areas to clean, and where Neato should stay away**

CLEANING OPTIONS

- Schedule cleaning
- Whole house cleaning
- Multi-Zone cleaning**
- Eco mode
- Turbo mode
- Alexa and Google Assistant compatibility**
- Extra Care navigation**
